

The graph displays the number of people in the labor force over a ten-year period. The x-axis, labeled 'Time', shows years from 2000 to 2010. The y-axis, labeled 'Number of people in the labor force', shows values from 0 to 100. The data points are marked with blue triangles, and a blue line connects them. The labor force size is 10 from 2000 to 2004, jumps to 20 in 2005, and stays at 20 through 2010.

Year	Number of people in the labor force
2000	10
2001	10
2002	10
2003	10
2004	10
2005	20
2006	20
2007	20
2008	20
2009	20
2010	20
